Title : TOOTHBRUSH

BOX REISSUE APPLICATION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

DECLARATION BY INVENTORS

We declare that:

Our residences, post office addresses, and citizenships are stated next to our names below.

We believe we are the original, first, and joint inventors of the subject matter that is claimed and for which a reissue patent is sought on the invention entitled: TOOTHBRUSH the specification of which is attached as a reissue application and identified by Attorney Docket No. 00216-638001, together with a preliminary amendment.

We have reviewed and understand the contents of the specification, including the claims, as amended by the preliminary amendment.

We acknowledge the duty to disclose information that is material to the examination of this application in accordance 37 CFR §1.56(a).

We believe the issued patent to be wholly or partly inoperative or invalid by reason of the patentee claiming more or less than the patentee had a right to claim in the patent. We intend this reissue application to be a broadening reissue application and we desire to seek broader claims.

Through error, the claims in the issued patent did not include claims of the scope now being presented in the reissue application.

One error was that, all of the claims of the issued patent recite a handle.
However, the specification describes an invention that relates more broadly to tooth
cleaning elements extending from a toothbrush head.

All errors which are being corrected in this reissue application up to the time of
filing of this declaration arose without any deceptive intention on the part of the
applicant.

All statements made herein of our own knowledge are true and all statements
made on information and belief are believed to be true; and further these statements were
made with the knowledge that willful false statements and the like so made are
punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United
States Code and that such willful false statements may jeopardize the validity of the
application or any patent issued thereon.
